

SANITARY CENTRIFUGAL PUMPS

DESIGNED TO MEET
THE HYGIENIC
REQUIREMENTS IN
THE FOOD INDUSTRY,
BEVERAGE, DAIRY,
ENOLOGIST,
CHEMICAL, ETC.
DESIGNED TO LAST IN
TIME, THANKS TO ITS
SIMPLE
MAINTENANCE, HIGH
EFFICIENCY AND
QUALITY

TECHNICAL FEATURES:

- Made of sanitary 316L stainless steel
- Completely built and designed in Italy
- Modular component systems
- Motor powers from 0.75 kW to 7.5 kW
- Customizable connections
- Energy-efficient IE3 motors (ABB and A&G)
- Pump test with inverter and possibility to request a test certificate
- Quick disassembly of the seal thanks to the removable seal holder
- Noise levels not exceeding 70 dB up to flow rates of 20 m³/h
- Availability of engines certified for foreign markets (UL-CSA-CCC-EAC-NOM etc ...)
- Available with self-flushing mechanical seal (internally flushed to the volute) or with external flushing mechanical seal
- Available in stock
